

# **SAFETY DATA SHEET (SDS)**

## 1. PRODUCT AND COMPANY IDENTIFICATION

#### **PROUDCT IDENTIFICATION:**

**Product Name:** TRAFFIC PAINT YELLOW

**Product Number:** 6656

Other Means of Identification: N/A

Product Use: Int/Ext Zone Marking Paint
Restrictions on Use: No Information Available

## **MANUFACTURER:**

O'Leary Paint Company

415 Baker Street

Lansing, Michigan 48910

www.olearypaint.com

Manufacturer's Phone: (517) 482-0473

**Emergency (24-hour) Phone:** (800) 424-9300

**Date of preparation:** September 30, 2019

## 2. HAZARDS IDENTIFICATION

Classification: Skin, Eye and Respiratory Irritant Category 1

Warning

**Precautionary Statements** – Prevention: Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Avoid breathing spray mist.

Hazards not otherwise classified (HNOC): Not applicable

## 3. COMPOSITION / INFORMATION ON INGREDIENTS

REPORTABLE COMPONENTS	CAS NUMBER	% by WEIGHT
Titanium Dioxide	13463-67-7	0-5
Limestone	1317-65-3	40-45
Methanol	67-56-1	0-2

#### 4. FIRST AID MEASURES

**Eyes:** Flush eyes with large amounts of water for 15 minutes. Get medical attention.

**Skin:** Remove contaminated clothing. Wash thoroughly with soap and water.

**Inhalation:** Move to fresh air. Seek medical attention if symptoms continue.

**Ingestion:** Do not induce vomiting. Get medical attention immediately.

### **Most Important Symptoms / Effects:**

**Eyes:** May cause slight irritation

**Skin:** May cause mild irritation

**Inhalation:** May cause irritation of respiratory tract

**Ingestion:** May be harmful if swallowed

## **Discontinue Use / Seek Treatment If:**

**Eyes:** Watering, redness or irritation

**Skin:** Irritation, dryness

**Inhalation:** Respiratory tract irritation, coughing

**Ingestion:** No specific data

### **5. FIRE FIGHTING MEASURES**

Flammable Properties: This product is not flammable

Extinguishing Media: Use foam, carbon dioxide, dry powder, water fog, or an extinguishing agent

appropriate for the surrounding fire.

**Unusual Fire and Explosion Hazards:** Closed containers may rupture or explode when exposed to extreme heat (due to build-up of pressure). Closed containers may

explode when exposed to extreme heat. During emergency conditions, overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.

**Protective Equipment:** Firefighters should wear self-contained breathing apparatus and full protective gear.

#### 6. ACCIDENTAL RELEASE MEASURES

Ensure adequate ventilation. Avoid contact with skin, eyes and clothing. Prevent further leakage or spillage. Soak up with inert absorbent material and transfer to a suitable container for proper disposal. No Known incompatible materials.

#### 7. HANDLING AND STORAGE

**Handling:** Avoid contact with eyes, skin and clothing. Avoid breathing vapors, spray mists or

sanding dust. Provide adequate ventilation. Wear appropriate respiratory equipment if

ventilation is inadequate. Wash thoroughly after handling.

**Storage:** Keep container closed when not in use. Transfer only to properly labeled containers.

Keep out of reach of children.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

	OSHA TWA	ACGIH TWA	OSHA STEL
Titanium Dioxide (d)	15 mg/m3	10 mg/m3	not established
Limestone (d)	15 mg/m3	10 mg/m3	not established
Methanol	200 mg/m3	250 mg/m3	not established

(d): Hazardous as dust when product is sanded

**Engineering Measures:** Use only in well ventilated areas. Ensure adequate ventilation, especially in

confined areas.

**Personal Protective Equipment:** 

**Eye / Face Protection:** Wear safety glasses or goggles.

**Skin Protection:** Protective gloves and impervious clothing.

**Respiratory Protection:** If exposure cannot be controlled below acceptable limits by ventilation, use an appropriate NIOSH approved respirator such as an air purifying respirator with organic vapor cartridge and dust/mist filter. Consult the respirator manufacturer's literature to ensure that the respirator will provide adequate

protection. Read and follow all manufacturers' instructions.

#### 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state: Liquid
Color: Various

**Odor:** Little or no odor

Odor threshold: Not available

**pH:** 8 to 10

Melting/freezing point: Not available
Boiling point / range: Not available
Flash point: Not available

**Evaporation rate:** < 1 (butyl acetate = 1.0)

Flammability (Solid, Gas) N/A

Upper flammability limit: Not available
Lower flammability limit: Not available
Vapor pressure: Not available
Vapor density: Not available
Density: 11.95 (lbs / gal)
Solubility (water): Not available

Partition coefficient: No information available

**Auto-ignition temperature:** Not available **Decomposition temperature:** Not available

**Viscosity:** 80 – 85 KU

### 10. STABILITY AND REACTIVITY

**Reactivity**No information available **Stability:**Stable under normal conditions.

**Conditions to avoid:** None known.

**Materials to avoid:** Strong oxidizing agents and strong acids.

**Hazardous Decomposition Products:** None under normal use. **Hazardous Polymerization:** None under normal conditions.

#### 11. TOXICOLOGICAL INFORMATION

### **Product information:**

Primary Routes of Exposure: Eye contact, Skin contact, Inhalation, Ingestion

Symptoms related to physical, chemical and toxicological characteristics:

No information available

Delayed and immediate effects as well as chronic effects from short and long term exposure:

Eyes: Watering, redness or irritation

Skin: Dryness, irritation

Respiratory: Irritation, coughing Ingestion: No specific data

## **Component Information:**

Titanium Dioxide: Oral LD50 (rat): >10,000 mg/kg

Dermal LD50 (rabbit): >10,000 mg/kg Inhalation LC50 / 4 hour (rat): >6.8 mg/l

In February 2006, IARC concluded. "There is inadequate evidence in humans for the carcinogenicity of titanium dioxide." IARC's Monograph 93 reports there is sufficient evidence of carcinogenicity in rats exposed to titanium dioxide but inadequate evidence for carcinogenicity in humans. It is an IARC Group 2B listed material. In addition, the IARC summary concludes, "No significant exposure to titanium dioxide is thought to occur during the use of products in which titanium dioxide is bound to other materials, such as paint".

## **Information on toxicological effects**

#### **Acute Toxicity**

Product/ingredient name	Result	Species	Dose	Exposure
Methanol	LD50 Oral	Rat	> 5.63 mg/kg	-

#### **Irritation/Corrosion**

Product/ingredient name	Result	Species	Score	Exposure	Observation	
Titanium Dioxide				72 hours 300	-	
Titanium bioxide	Skin - Mild irritant	Human	Human -	-	Micrograms	
				Intermittent		

## 12. ECOLOGICAL INFORMATION

#### **Toxicity**

Product / ingredient name	Result	Species	Exposure
Titanium Dioxide	Acute LC50 >1000000 μg/l Marine water	Fish - Fundulus heteroclitus	96 hours

## 13. DISPOSAL CONSIDERATIONS

**Disposal Instructions:** Do not allow material to drain into sewers/water supplies. Dispose of in accordance with all federal, state and local regulations. Consider recycling.

### 14. TRANSPORT INFORMATION CONSIDERATIONS

Not regulated

### 15. REGULATORY INFORMATION

## California Prop. 65

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

## **16. OTHER INFORMATION**

**Hazardous Material Identification System (USA)** 

Health: 1
Flammability: 0
Physical Hazard: 0
